Rockwood's Lavender Rose. Fine for Easter and Mother's Day markets. Deep rose with a lavender hue **3.00**

CULTURAL HELPS

Special Note—Seed should be sown late June or July for Winter flowering in Northern States. Late July or early August in Southern States. High temperatures retard germination. Select a cool location for the seed flats where there is good air circulation. Water sparingly but keep moist, until seedlings are well established. We recommend using soil and it should not be fertilized.
